

## Testimonials

*"When Dave and I matched at Emory University for his anesthesiology residency, we literally had five days in which to find a home. We spoke with many Realtors before we found Bill. He distinguished himself by taking the time to have a phone interview with us in New York to garner background information on our house-hunting preferences and priorities. When we flew in, Bill basically cleared his schedule and personally took us on a whirlwind self-guided tour of Atlanta. When we placed a bid on our home, he was very supportive and comforting, and when our bid was ultimately accepted, he was as genuinely pleased as we were. We have since remained close friends, and would whole-heartedly recommend him to anyone looking for an agent. Bill's knowledge of the Atlanta area, his realty experience, his extensive law background, and his warm personality certainly made our home-buying experience a seamless and successful one."*

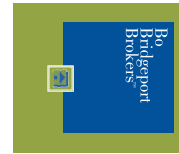

*- Drs. Summer Finnigan and David Nusz*

*"Everyone told me what an intimidating experience buying your first house can be. Luckily, thanks to Bill my purchase was completely hassle and stress free. Bill is very familiar with the area close to Emory and understands a new doctor's budget since he has worked with over quite a number of Emory residents. The properties he showed me were exactly what I was looking for and I was able to find my new home very quickly. Additionally, he has relationships with banks that handle new doctor loans and put me in touch with a wonderful lender. He certainly made my first home purchase a breeze."*
